

Dedicated email address for eVetting.

The outcome of vetting applications to ACCS will be sent to the Principal by email.

In preparation for this, the Principal should now take steps to supply a secure and confidential email address to ACCS containing the letters 'ev' which will be used exclusively for the vetting process and should be separate from all other email addresses used in the school.

For example: principalev@.....cs.ie . This should be sent to evetting@accs.ie . This is necessary as vetting disclosures are of a highly confidential nature and data protection obligations on the school require that this data be safe, secure and confidential to the Principal.
